# BIOMETRIKA

A JOURNAL FOR THE STATISTICAL STUDY OF BIOLOGICAL PROBLEMS

FOUNDED BY

W. F. R. WELDON, FRANCIS GALTON AND KARL PEARSON

EDITED BY

KARL PEARSON

VOLUME X

APRIL 1914 TO MAY 1915

CAMBRIDGE
AT THE UNIVERSITY PRESS

LONDON: FETTER LANE, E.C.
(C. F. CLAY, MANAGER)
AND H. K. LEWIS, GOWER STREET
WILLIAM WESLEY AND SON, 28, ESSEX STREET, STRAND
EDINBURGH: 100, PRINCES STREET
CHICAGO: UNIVERSITY OF CHICAGO PRESS
BOMBAY, CALCUTTA AND MADRAS: MACMILLAN AND CO., LIMITED
TORONTO: J. M. DENT AND SONS, LIMITED
TOKYO: THE MARUZEN-KABUSHIKI-KAISHA

# CONTENTS OF VOL. X.

*Memoirs.*

| | | PAGE |
|---|---|---|
| I | Congenital Anomalies in a Native African Race. By HUGH STANNUS STANNUS | 1 |
| II. | Tables of Poisson's Exponential Binomial Limit. By H. E. SOPER | 25 |
| III. | On the Poisson Law of Small Numbers. By LUCY WHITAKER | 36 |
| IV. | The Relationship between Weight of the Seed Planted and the Characteristics of the Plant Produced. By J. ARTHUR HARRIS | 72 |
| V. | On the Probability that two Independent Distributions of Frequency are really Samples of the same Population, with special Reference to Recent Work on the Identity of Trypanosome Strains. By KARL PEARSON | 85 |
| VI. | On Homotyposis and Allied Characters in Eggs of the Common Tern. By WILLIAM ROWAN, K. M. PARKER and JULIA BELL | 144 |
| VII. | A Piebald Family. By E. A. COCKAYNE | 197 |
| VIII. | Clypeal Markings of Queens, Drones and Workers of *Vespa vulgaris*. By OSWALD H. LATTER | 201 |
| IX. | Table of the Gaussian "Tail" Functions; when the "Tail" is larger than the Body. By ALICE LEE | 208 |
| X. | Contribution to a Statistical Study of the Cruciferae. Variation in the Flowers of *Lepidium draba* Linnaeus. By JAMES J. SIMPSON | 215 |
| XI. | Nochmals über "The Elimination of Spurious Correlation due to Position in Time or Space." Von O. ANDERSON | 269 |
| XII. | Statistical Notes on the Influence of Education in Egypt. By M. HOSNY | 280 |
| XIII. | Height and Weight of School Children in Glasgow. By ETHEL M. ELDERTON | 288 |

70060

PAGE

XIV. Numerical Illustrations of the Variate Difference Correlation Method. By BEATRICE M. CAVE and KARL PEARSON . . 340

XV. An Examination of some Recent Studies of the Inheritance Factor in Insanity. By DAVID HERON . . . . . 356

XVI. On the Probable Error of the Bi-Serial Expression for the Correlation Coefficient. By H. E. SOPER . . . . . 384

XVII. On the Partial Correlation Ratio. Part I, Theoretical. By L. ISSERLIS . . . . . 391

XVIII. Association of Finger-Prints. By H. WAITE . . . . . 421

XIX. On the Problem of Sexing Osteometric Material. By KARL PEARSON 479

XX. Further Evidence of Natural Selection in Man. By ETHEL M. ELDERTON and KARL PEARSON . . . . . 488

XXI. Frequency Distribution of the Values of the Correlation Coefficient in Samples from an indefinitely large Population. By R. A. FISHER . . . . . 507

XXII. Appendix to Papers by "Student" and R. A. Fisher. EDITORIAL 522

XXIII. Tuberculosis and Segregation. By ALICE LEE . . . . . 530

XXIV. The Influence of Isolation on the Diphtheria Attack- and Death-rates. By ETHEL M. ELDERTON and KARL PEARSON . . 549

## *Miscellanea.*

(i) The Statistical Study of Dietaries, a Reply to Professor Karl Pearson. By D. NOEL PATON . . . . . 169

(ii) The Statistical Study of Dietaries, a Rejoinder. By KARL PEARSON 172

(iii) Note on the Essential Conditions that a Population breeding at random should be in a Stable State. By KARL PEARSON . 175

(iv) The Elimination of Spurious Correlation due to Position in Time or Space. By "STUDENT" . . . . . 179

(v) On certain Errors with regard to Multiple Correlation occasionally made by those who have not adequately studied the Subject. By KARL PEARSON . . . . . 181

(vi) Formulae for the Determination of the Capacity of the Negro Skull from External Measurements. By L. ISSERLIS . . . . 188

(vii) Note on a Negro Piebald. By C. D. MAYNARD . . . . 193

PAGE

(viii) Note on Infantile Mortality and Employment of Women. By ETHEL M. ELDERTON . . . . . 193

(ix) Announcement of Prize Essay by Professor F. M. URBAN . . 196

(x) *Corrigendum*, Congo Female Crania in Vol. VIII. p. 307 . . 196

(xi) On Spurious Values of Intra-class Correlation Coefficients arising from Disorderly Differentiation within the Classes. By J. ARTHUR HARRIS . . . . . 412

(xii) Correction of a Misstatement made by Mr MAJOR GREENWOOD, Junior. By K. P. . . . . 418

(xiii) Note on Reproductive Selection. By DAVID HERON . . . . 419

(xiv) On the Probable Error of a Contingency Coefficient. By KARL PEARSON . . . . . 570

(xv) On Medieval English Femora, A Reply to Professor Parsons. By KARL PEARSON . . . . . 573

## *Plates.*

Plate I. (1) Samuti, an Ateliotic Dwarf. (2) Subgiant, Height 1·92 m., with Wife and Albinotic Child. (3)—(4) Etimu, aged 25, an Achondroplasic Dwarf . . . . . *to face p.* 24

Plate II. (5)—(6) Masimosya, aged 19, Gynaecomastos, with other features which were formerly described as those of Partial Hermaphroditism. (7) Macrocephalic Idiot. (8) Case of Hydrocele testis . . . . . „ 24

Plate III. (9)—(11) Boy, aged 15 years, showing Scaphocephaly „ 24

Plate IV. (12)—(13) Son of Matikwiri, aged 7, a case of Scaphocephaly. (14) Cases of Umbilical Hernia. (15) Split Hand and Foot in a Child, aged 5 . . . . . „ 24

Plate V. (16) Case showing faint medium depression of upper lip. (17) Blantyre boy, aged 10, with Hare-lip. (18) Young Woman with two nipples on left breast. (19) Gobedi, aged 22, with congenital Humeral Micromely . . . . . „ 24

Plate VI. (20) Ndala, Split Hand, left only. (21) Chibisa, aged 30, elongation of all segments of middle finger and its metacarpal bone. (22) Shortening of the fourth metatarsal bone. (23) Case of Polydactyly. (24) Shortening of the left great toe . . . . . „ 24

Plate VII. Transition of Poisson's Exponential Limit of the Binomial Series into the Gaussian . . . . . „ 42

Plate VIII. Sample Eggs, Common Tern, Natural Size (In colours) *to face p.* 146
Plate IX. Types of Mottling of Eggs of Common Tern . . „ 146
Plate X. Dr Maynard's Piebald Negro . . . . . „ 193
Plate XI. Pedigree of Cockayne's Piebald Family . . . „ 200
Plate XII. Photographs of members of Cockayne's Piebald Family „ „
Plate XIII. „ „ „ „ „ „ „
Plate XIV. „ „ „ „ „ „ „
Plate XV. „ „ „ „ „ „ „
Plate XVI. „ „ „ „ „ „ „
Plate XVII. Right forearm of a member of Cockayne's Piebald Family to show leucotic patches . . . . . „ „
Plate XVIII. Leucotic forehead, blaze and white hairs of eyebrow in a member of Cockayne's Piebald Family . . . . „ „
Plate XIX. Model of Skew Regression Surface giving mean Weight of Girls of Class B in Glasgow Schools for a given Height and Age . . . . . „ 295
Plate XX. Types of Finger-Prints . . . . . „ 422

## *Corrigenda and Addenda.*

The following corrections and additions to the memoir on the Partial Correlation Ratio, pp. 391—411, have been received from Mr L. Isserlis:

Page 396. Eqn (28) *for* $\frac{z}{\sigma_z}$ *read* $\frac{\bar{z}_{xy}}{\sigma_z}$; Eqn (30) *for* $r_{xy}=$ *read* $r_{xz}=$; Eqn (35) *for* $\frac{z}{\sigma_z}$ *read* $\frac{\bar{z}_{xy}}{\sigma_z}$.

Page 397. Eqn (37) *for* $r_{xy}=$ *read* $r_{xz}=$; Eqn (38) *for* $cq_{xy}$ *read* $cq_{xy^2}$; Line following Eqn (45) *for* $d=-c\gamma_{xy}$ *read* $d=-cr_{xy}$; Eqn (46) *for* $\gamma_3' q_{xy}$ *read* $\gamma_3' q_{xy^2}$; Line following Eqn (46) *for* ${}_{xy}R_x^2$ *read* ${}_{xy}R_z^2$.

Page 402. Line 8 from top: after,

$$ {}_{xy}H_z^2 - {}_y\eta_z^2 = S_y\left\{\left(a+\frac{c_y}{\sigma_y}\right)^2\left(1-{}_y\eta_x^2\right)\frac{x_y}{N}\right\} $$

*insert* "provided the arrays of $x$ for constant $y$ are homoscedastic, or sufficiently so, for this to be an approximation."

Line 6 from bottom *for* $\gamma_3'\phi - r_3\theta$ *read* $\gamma_3'\phi - \gamma_3\theta$.

Expression at foot of page, factor $(r_{xy}q_{x^2y}-q_{x^2y})$ of first term in large curled bracket *should read* $(r_{xy}q_{x^2y}-q_{xy^2})$ and factor $(r_{xz}q_{x^2y}-r_{yz}q_{xy})$ of expression in numerator of last line of same bracket *should read* $(r_{xz}q_{x^2y}-r_{yz}q_{xy^2})$.

Page 403. In denominator of second term of expression in first line *for* $1-{}_y\eta_x{}^2$ *read* $1-{}_x\eta_y{}^2$.

Page 405. In denominator of left-hand side of Eqn (70) *for* $q_{x^2y^2}-r^2$ *read* $q_{x^2y^2}-r^2{}_{xy}$.

Page 406. Line below Eqn (71) and in Eqn (72) *for* $\frac{2r^2{}_{xy}}{1+r^2{}_{xy}}$ *read* $\frac{1+r^2{}_{xy}}{2r^2{}_{xy}}$.
